BERT LYTELL IN "THE RIGHT OF WAY" TODAY

"The Right of Way," in motion picture form, an adaptation of the famous novel by Sir Gilbert Parker, in which Bert Lytell plays the leading role will be shown at the Butler Theatre today.

"The Right of Way," which in book form has been read by millions, is a stirring, picturesque and unusual story of the Canadian life in Montreal and again on the fringe of the north woods. The action revolves chiefly about the character of Charles Steele, called for his dash and manner by his friends and enemies, both of whom were numerous, "Beauty" Steele. The famous courtroom scenes in which after clearing a man of the charge of murder, Steele snaps at him "out of my sight—your as guilty as hell," opens the drama.

The production has been done with all the finish characteristics of screen classics pictures, which are distributed exclusively by Metro, and is one of the screen events of the season.

Tomorrow, Constance Binney, in "The Stolen Kiss," and Wednesday, the big picture, "The Confession," adv.

TEACHERS' EXAMINATION

The regular State Teachers' examination will be held in Tonopah on the week commencing June 14, when Mrs. Hays will conduct the examination. T. W. CHAPMAN, Deputy Superintendent Schools, adv.

A. F. L. ANNUAL LABOR REVIEW

By Associated Press. MONTREAL, June 7.—Denunciation of Bolshevism, profiteering, the action of the United States government in invoking the food control law against the late miners' strike, and the failure of the American Congress to take action to control the cost of living are among the outstanding features of the annual report of the Executive Council of the American Federation of Labor presented today to the annual convention here.

With the council's review of organized labor's position and activities for the last year, was also presented "a specific program for remedy."

The Cummins railroad law was denounced, as was the Kansas law establishing the court of industrial relations. The high cost of living was laid largely at the door of "big profiteers" while the report declared the United States government, principally through the Department of Justice, "has conducted a campaign of stupidity."

Congress was assailed for cutting appropriations designed to carry on the work of the collateral branches of the Department of Labor and for various proposals such as the sedition bill, which the report says the labor movement was instrumental in defeating.

In its references to the foreign field, the report denounced what it characterized as propaganda for American intervention in Mexico and declared that the executive council sees "no justification for inter-

ference," which it argues would be in the interest "of the exploitation of its workers, and its boundless wealth of oil and minerals."

The United States Steel Corporation was assailed for its refusal to deal with organized labor organizations in the recent unsuccessful strike, and the authorities of Boston also were denounced for their attitude in the celebrated strike of policemen in that city.

The workmen of Canada were congratulated for defeating "the one big union" idea and their stand was characterized as a "magnificent triumph for trade unionism, and a vindication of the purposes, policies and

Pertinent Inquiry.
Where to serveth learning, if understanding be not joined to it?—Montaigne.
The industrial conferences called by President Wilson were characterized as unsuccessful because "the employers stubbornly resisted every attempt at conciliation" and would not accept any resolution on collective bargaining unless it was worded as to be anti-trade union in spirit and to provide encouragement and support for company unions.
